Additional Backup Information

This contract will provide kitchen hood cleaning services on as-needed basis for the Convention Center Department.

Kitchen hoods have the potential to become a firetrap if grease and oil are not cleaned out regularly. Over time, grease and grime deposits can coagulate and turn into an extremely flammable glue-like substance inside the kitchen hood system that, with enough heat, can potentially ignite. This contract will ensure the kitchen hoods are in compliance with local and national fire codes.
